

How to Invite Other Staff Members into the Platform

08/10/2023 10:56 am CDT

If you are an administrator on your parish's account, you can click your profile image in the upper righthand corner and choose "Users". From there you can add, edit, or delete users. Giving "Admin" permission gives that person full access to the parish account, including adding or deleting connections to Facebook, Instagram, and Twitter. Making someone a standard user allows them you to tailor their post and resources read/write permissions.
