

Scheduling in CSM vs. Facebook

08/10/2023 11:12 am CDT

When I go to Calendar, I don't see every post I've published on Facebook/Twitter/Instagram. Why is that?

Our service does not take historical data from Facebook, Twitter, or Instagram and display it.

When I go to Facebook/Instagram/Twitter's scheduler, I cannot see Catholic Social Media content I've scheduled. Why is that?

Our system does not push items to various social media platforms until necessary, to ensure that you can delete or edit items as needed. Once a post is in the "hands" of the other platforms, it must be dealt with there. Similarly, if Catholic Social Media sent scheduled posts to those platforms right away, you would be unable to edit from within the Catholic Social Media platform.
