How to Add a Cover Image to a Category in Resources

09/15/2025 10:12 am CDT

Cover images (or thumbnails) are an easy way to show a preview of what's inside a category in the Resources section. It also makes your Resources section more visibly appealing and easier to navigate.

Here's how cover images works:

First, the tool will automatically select the first image file in your overall category to show as the cover image. If there is no image file found, it will display a generic icon.

You can also customize the cover image by uploading your own. Here's how to do it:

1. Click the category you want to edit

2. Click the pencil icon (edit)

3. One of the options displayed will be to upload a cover image. Click that button, select your image, then click publish.
